

# EARTH ORDER

## INTRODUCTION VIDEO SCRIPT

By: Daví

Released: 11.20.2020

Before we get started, I'd like you to consider a question:

Can you give-up the one-up? You know, that one thing you have that's better than everyone else for a little while, then you gotta find something else. Yeah that. Can you give that up for the greater good?

Earth Order is hiring anyone to evolve humanity by evolving themselves. There are no daily requirements. The salary is variable each season but always more than enough. Want to apply? Ha!

Hey everybody! Everybody everybody!

Now lets' get into it:

Are you feeling like you don't know what the heck is going on? It's ok. You should feel that way. You're feeling that something is wrong indicates that something is wrong!

Here's what happened:

They.. we'll get into who later.. created a game called capitalism, it looked a lot like Monopoly except it had racism, sexism, classism, heterosexism, anti-environmentalism and few other-isms were too complex for the board game version. So they built this game and convinced everybody that they had to play through blatant genocide and brainwashing.

Thus we have countries of beautiful and diverse people who serve agents of uncontrollable selfishness, control and domination causing an unhealthy cycle leading to everything that we have in 2020. The isms (that they forgot to mention) are so toxic they are destroying everything, including themselves.

Pandemic, wildfires, social unrest, hurricanes and leaders who don't seem to call Earth their home like the rest of us, which must be the reason they're not handling the emergencies. Everything that once made the intentions of this version of capitalism in anyway productive are now exhausted. Thus it's served it purpose. Thank you.

In this version of Monopoly / capitalism the goal was:

Individual Hoarding of Wealth, Power and Control by any means necessary. Somebody... already beat game so the rest are just kind of those players who are sitting and watching and waiting to see how the game ends. Now usually, when this happens we would just go play another game. Ah!

I have a new game! It's called Earth Order.

In Earth Order the goal is: Human Thriving and Evolution.

In this game, Earth Order hires everyone to evolve humanity. Everyone gets the same salary to support all of their needs. All businesses support Earth Order. We use capital as a mechanism of sharing resources fairly and everyone decides how to evolve themselves for the greater good in their own way. Nothing more, nothing less.

## HERE'S HOW IT WORKS -

Say in the 1<sup>st</sup> Season, in the Earth Order General Budget we have \$15 million. From the Earth Order Businesses we receive a total pledge of \$34 million, totaling \$49 million for the season. That \$49 million is then split into two. One half going to the Earth Order General Budget, the other half going toward the salary of each Participant in Earth Order equally.

That's \$24.5 million. If there 1000 Participants, each participant would receive \$24,500 as their payment for the season. If this trend continues throughout the year some fluctuations in the pledge amounts, the Earth Order Participant's annual salary would average to be about \$93,500. I'm just gonna let this sit right here for a moment. And ok.

Well what a cute little project for 1000 people huh? BUT what if we were talking billions of dollars and millions of participants? Ah, we're cooking now baby!

Just to put this in context, our society, despite 2020 the U.S. has been able to fund 1 person whose pay is around \$10 billion, per month. In fact, with his income alone over, 1.2 million Earth Order Participants could be fully funded for a year. I'm not telling you this so we can ask yet another deaf ear for something, I'm telling you so that you might notice your power. If we've funded him, maybe we can fund ourselves?

Earth Order creates a buoyant economy, flexible to the ebb and flow of international business. Earth Order pays Participants a seasonal salary, offers a voluntary home exchange, allows Participants to choose how they participate in business and business thrives with a like-minded community support system. Certain Earth Order Businesses may have lots of profit in one season and others maybe none, the collective holds the balance. Instead of inflation, you'll notice a healthy deflation as commerce rebalances with the currency managing it. Peace, optimism and inspiration fills the land where humans are cared for by their own species. Just as our fellow Earthlings, the flamingoes, the walruses, the penguins, the geese and so many other successful species do for THEIR own.

By doing this, we mimic the very vortex of Earth herself. Just as her rains and magnetic fields are all in cycles of receiving and giving change for all within her, we use patterns to grow in time. You don't have to be worried about things working out for someone else or if the system itself will work out because Earth has made it so that there is always someone passionate about the exact thing that you are not.

There is plenty for all, for Earth has made it so. We accept plenty in her way: cycles for ALL.

If you are a baker, be your best - delight human taste buds again and again. If you are a farmer, be your best - manage Earth and fellow Earthlings with care. If you are a doctor, be your best, care well, fret not of money while thinking of caring for humans.

Do your work with passion, do your work with care. Do it with freedom from financial ebb and flow but rather matching demand with supply. Focus on best quality work and not just quantity. And most importantly, HOW you believe you should do it.

If you believe doing your work in your own business is the best way for you to do your work, do that. If you believe your best is contributing to another business, contribute. Choose the type of food, home, healthcare, transportation that you want. Your steps are yours to choose.

Requirements of Earth Order Businesses:

Each season every Earth Order Business will report:

- Their employee roster
- Their profits, sending 50% of those profits to Earth Order

Requirements of the Participant:

- Agreement to Humankind Spiritual Code
- Fill out the Life Survey annually
- Work in a chosen or self-created Earth Order Business.

That's it!

Here's how Voting Works

Everyone votes on everything up for vote in Earth Order. Earth Villages can choose whether they would like to vote on their Representative OR based on the previous cycle of votes, the individual whose votes were closest to the average opinion of the votes in the village can be offered the Representative role. During a vote, the Representative's vote ballot can be copied by those in the Earth Village or the individual may choose their own votes. Either way, everyone has a vote that counts for every nationwide-choice / vote made by Earth Order.

So say we have Earth Order-wide vote on (among other things) whether Earth Order will provide all participants who desire with solar panels on their roofs so that everyone has access to free energy / power. In this vote, the Participant can either choose to directly vote or copy the vote of their representative.

## HOW DO WE GET THERE?

January 1<sup>st</sup> 2021 –

For Earth Order Participants:

Life Survey opens! All those in the world who would like to apply are welcome to.

Those who don't want to be part of Earth Order are encouraged to fill out the survey more than those who do. We want our data on places to reflect those who are there so that we have an understanding of the viewpoints / opinions of any area.

As part of the survey, Participants may elect to be part of the Earth Order Home Exchange. These are homes, apartment buildings, lands, condominiums that are donated to Earth Order such that they may be better utilized by another Earth Order Participant. Those currently without physical homes will be offered a home and/or building opportunities in these properties. Participants who want to change their home locations are also offered the opportunity to participate in the exchange.

The final step of the survey is the agreement to Humankind Spiritual Code. Humankind Spiritual Code is our offering to you of a sacred code to share amongst humans such that basic understandings are present in all interactions.

1. Clean ordinance befits each person.

Keep your self organized.

2. Each one holds truth. Personal accountability and integrity are sacred practices.

3. Blatant negativity is unnecessary.

You know the difference.

4. Choose the best human(s) in your personal opinion to mate with.

This is not only in reference to physical appearance but each mate in their entirety. Your choice shapes the future of humanity.

5. Birth children and/or rear children with specific intention for their own success.

6. No child can be subjected to any permanent traumas such as sex, labor or violence prior to the age of 16 years.

7. Be HERE NOW.

Remain centered in oneself and allow conversation internally and externally to reflect how to make it better - I would feel better if... I would feel better if.. and do.. and do!

8. All "drugs" are legal.

Rehabilitation for abusers is plentiful. Those who don't agree can be away from those who do.

9. All participants with agreements in locations with other laws/rules still abide those laws/rules as well.

10. All weaponry is only used for food hunting, in defense of Earth or humanity and for other non-human reasons.

March 20, 2021 / The 2021 Spring Equinox -

Earth Order begins! The first Earth Order event will occur in the Heart of the World, New York City celebrating the dawning the of the Age of Aquarius, the launch of new era of beauty, thriving, diversity, good order, art, innovation, technology, spirituality and evolution.

So...

Do you remember that Kemet / Egypt was part of something called stair-step evolution? Ya know, that moment, that higher being named Djehuty or Thoth came and taught people of Kemet / the Egyptians math and irrigation causing a sudden evolution in human thought capacity? Yea, this is THAT MOMENT again for the humans. My offering to you is social order that encompasses humanity, Earth and technology. We had to learn how-not to use technology in order know how-to use technology in the Earth. Now we know we've learned the lesson, this is the synthesis, the is the vibration for human sustainability.

Earth Order will bring some rhythm to this society baby. Everyone benefits at the same time in part of the same place. Real real real real, real real real real unity. Just like a heart beat. Every organism requires rhythm for consciousness. Let's give society a heart.

Most importantly for society, we'll move away from the entire society being solely based on the limited creativity of a few popular ancestors and businesses that people actually believe in will grow, rather than just the businesses that are just most well-funded.

So before I leave you, I ask you once again -

Can you abandon one-upping each other?

Can you give up the financial competition? Is it alright that everyone is just creative with how they use their finances?

Can you give up the chance for YOU to have a HIGHER salary than another, so that all have a GOOD salary?

Can you trust that you, just as you are, ARE good enough / ARE deserving of the world of peace and love that's been discussed so much?

Can you trust that we, just as we are, ARE good enough / ARE deserving of the world of peace and love that's been discussed so much?

In the smallest way, you are simply saying "I deserve life" and by claiming your life you are claiming the peace and love necessary for life to exist. Even the smallest bit of optimism you may have found in this video is the first step to the world's healing and growth.

Ok everybody. This is gonna move kinda fast, so prepare yourself. And now some parting music with Reverend Dr. Martin Luther King Jr. See you 2021!

There are wonders of the humanity, Earth and the universe hidden from the human species for too long. This is the first step in the rediscovery of what it is to be human and magic of what it is to be alive. I am excited to light way with you.

Love,

Ävatar Daví
